EDUCATION & QUALIFICATIONS

Economics (BSc)	*Queen Mary University*	***First Class Grade Achieved***	2018 - 2021
A Levels	*Stepney Green Sixth Form*	***AAA Maths Economics Chemistry***	2016 - 2018
GCSEs	*Stepney Green Secondary*	***9 A*s 3 A's 1 B***	2011 - 2016

TECHNICAL PROJECTS

Travel Recommendation WebApp – Globetrotter
Helps users plan ideal trip and provides location information and quick access to flight ticket information.
- Built Django server as part of backend team – developed user authentication & authorization system. Developed API for airports using csv database obtained online as a solution to constraining 3rd party APIs.
- Transitioned to frontend team to provide support once backend server was functional and deployed.

React | Django | Python | JavaScript | HTML | CSS | PostgreSQL | Git | GitHub | Heroku | Netlify | Jest | Pytest

Multiplayer Online Quiz WebApp – Party Parrot Quiz
Create, invite and play a fun trivia game with other people - has customizable difficulty, topic and question range.
- Designed and implemented React client as part of frontend team – implemented controlled input fields, collaborated to create a smooth user experience creating/joining lobbies.
- Spearheaded development of socket server vital for real time multiplayer interactivity.

React with Redux | Express | Socket.io | Node | JavaScript | HTML | CSS | Jest | React Testing Library | Docker | MongoDB | Git | GitHub | Heroku | Netlify

Daily Habit Tracker WebApp
Log in, track, update and complete daily habits the user would like, to stay motivated and increase their streak.
- Initially started frontend then switched to backend team to carryout development of the server and database. Worked using MVC pattern to design backend system and interaction with database. Architected designs/ schemas for database.
- Coordinated throughout with frontend team to keep goals and objectives inline while on a time crunch.

Express | Node | JavaScript | HTML | CSS | PostgreSQL | Jest | Docker | Git | GitHub | Heroku | Netlify

KEY SKILLS

- Strong eye for recognising bugs and discrepancies in large codebases
- Ability to deconstruct problems or long processes into smaller manageable steps and follow through systematically
- Experienced verbal & written communicator | Good listener | Highly organised | Highly responsive
- Ability to work independently and self-motivate to produce high quality and timely results regularly
- Creating synergy in a workplace by maintaining a good temperament, utilising team efforts, and working methodically
- Good knowledge & experience in MS Excel, MS Office & Outlook

JavaScript | Python | TypeScript | Node | Express | React with Redux | Django | Flask | HTML | CSS | OOP | REST API | Databases | RDBMS | NoSQL | PostgreSQL | MongoDB | Unit Testing | Jest | Containerisation | Docker | Git | GitHub | Unix | Web Development | MVC | Debugging | Googling | Agile workflow | Problem Solving | Experienced at planning | Team player | Communicating niche problems effectively | Excellent Time Management | Adaptable | Culturally intelligent

EXPERIENCE

Futureproof – Trainee Full stack Developer   2021 - 2022
Highly intense and rigorous coding bootcamp, designed to teach full-stack web development, coding fundamentals from ground up and give experience working in an agile workflow on projects with set deadlines

Robert Dyas, Artillery Row - Sales Assistant   2014 - 2015
- Fast-paced environment, working around seasonal time, regularly assisted customers with their shopping experience; active part working as a team of 5, communicating frequently
